

**Semiconductor
Interconnect
Electromechanical SUPPLIER**

Abacus Technologies is partnering with the top semiconductor, interconnect and electromechanical manufacturers in the world. Our goal is to provide our suppliers with a unique advantage against their competition. Abacus' long-standing relationship with our customers allows our suppliers to introduce new products and services to the electronic manufacturing industry.

Globalsourcing

In addition to our franchised lines, Abacus Technologies works with our customers to locate hard to find, obsolete, or long lead time products using our certified domestic and international partners. Our current sourcing capability is backed by skilled sales and product teams who are continually increasing their knowledge about products, inspection, packaging requirements, value added services, and the ever changing needs of our customers to generate the optimum offering. Abacus is well respected by our customers and in our industry for being an expert in sourcing. We are a preferred vendor for many high profile OEMs and CMs, but are versatile enough to offer the same services and expertise to our smaller customers. Abacus wants to understand all of our customers' individual needs and work with them to meet their goals.

Electronic Distributor

SEMICONDUCTORS

AMD	OKI
AGILENT	ON
ALLEGRO	
ALTERA	PHILIPS
ANALOG DEVICES	
ATMEL	RENESAS
AVAGO	
	ST MICRO
BURR BROWN	SAMSUNG
	SHARP
CYPRESS	TEXAS INSTRUMENTS
DALLAS	TOSHIBA
EPSON	VISHAY
FREESCALE	WINBOND
HITACHI	
	XICOR
	XILINX
IDT	
INTEL	ZILOG
INTERNATIONAL RECTIFIER	
INTERSIL	
INFINEON	
	<u>PASSIVES</u>
LATTICE	AMP
LINEAR TECHNOLOGY	AMERICAN POWER CONVERSION
	AVX
MAXIM	AGASTAT
MICROCHIP	ALCO SWITCH
MICROSEMI	ALPHA
MICRON	AMERICAN ZETTLER
	AMPHENOL
NEC	ARIES
NATIONAL	
NXP	BELDEN

The vision of Abacus Technologies is to be an expert in electronic component distribution backed by a worldwide sourcing capability. We are continually perfecting the customer's experience by anticipating their needs and solving their problems with innovative processes and technology allowing us to respond in less time and market sensitive information.
